| Benefits of Effective Reporting | |
| Increased Communication | |
| Increased Productivity | |
| More Accurate Planning and Forecasting | |
| Timely Evaluation and Control | |
| Principles of Effective Reporting | |
| Make It Useful | |
| Make It Clear | |
| Make It Simple | |
| Make It Comprehensive | |
| Make It Relevant | |
| Make It Include Commentary | |
| Make It Appealing | |
| Make It Accurate | |
| Make It Timely | |
| Make It Cost-effective | |
| Summary | |
| Review Questions | |

2 Enhancing the Relevance of Financial Reporting 15

Introduction

The Purpose of Financial Reporting

External Financial Reporting

Internal Financial Reporting

Cutting-Edge Reporting

Developments in External Reporting

Internal Reporting as a Value-added Activity

New Performance Measurements

Strategic Cost Management

Activity-based Costing

Nonfinancial Measurements

Characteristics of Reports

Purpose

Function

Direction of Information Flow

Time Horizon

Scope

Format

Level of Detail

Distribution

Types of Management Reports

Planning and Control Reports

Profitability and Cost Reports

Reports for Decision Making

Summary

Review Questions

3 Determining Information Needs

31

Introduction

Components of Information Needs

Approaches for Determining Information Needs

The Byproduct Technique

The Null Approach

The Key Indicators Approach

The Total Study System

The Critical Success Factors Approach

Selecting an Approach

Auditing an Existing System

Implementing a Reports Improvement Program

Gaining Background Information

Setting Objectives

Staffing the Reports Improvement Program

Documenting Information Needs

Summary

Review Questions

| | | |
|----------|--|-----------|
| 4 | Designing the Reporting System | 45 |
| | Introduction | |
| | Linking External and Internal Reporting | |
| | Reporting and Organizational Change | |
| | The Needs Assessment and Report Design Cycle | |
| | Documenting the Gaps | |
| | The Feasibility Study | |
| | Preparing an Outline | |
| | Process Mapping | |
